RESEARCH

30 Years of Welfare-to-Work:

Intergenerational Impacts of Welfare Reform

Draft coming soon

Job Market Paper

Uses internal Census Bureau data and a sibling research design to show that childhood exposure to 1990s welfare reform raises adult earnings and employment, with effects that fade rather than compound over the life cycle.

The Take-Up Gap: Sorting versus Place Effects in Medicaid

Work in Progress

Separates the effect of place from the sorting of people using an AKM-style decomposition and migration patterns, with Carl McPherson.

Discretion and Disqualification in SNAP Work Requirements

Work in Progress

Studies the impact of SNAP work requirements on program participation and employment in California using caseworker-level administrative data from the California Department of Social Services (CDSS).
